*The mission of Prison Radio is to record and distribute voices from prison to over 1,000 radio stations worldwide. Over the last year, we recorded over 250 essays from 30 correspondents. We maintain two state-of-the-art recording studios, one on the West Coast and another on the East Coast. We place a premium on the quality of the recordings and the signal path and equipment. It is not sufficient to just record prisoners, they have to be heard clearly. High quality recordings go a long way to eliminating initial barriers to broadcast. Hear more at [www.prisonradio.org](http://www.prisonradio.org).*
