

Dear Friend:

Mumia Abu-Jamal has been incarcerated while innocent for over 34 years. His death sentence was revoked in 2011, and now his jailers are trying death by Hepatitis C.

There is a treatment for Hepatitis C: one pill a day for 12 weeks.

Mumia needs this life-saving treatment, but the prison and Department of Corrections are denying him of his rights.

Prisoners have rights. The people holding Mumia hostage despite his innocence are also holding his First and Eighth Amendment rights hostage.

Mumia's legal team is back in court to demand his immediate Hep C treatment, which could pave the way for all 10,000 Hep C-positive prisoners in Pennsylvania to receive treatment too. We can win this legal battle, but it's going to take all of us to do it.

I am determined that Mumia's treatable illness will not be his death sentence!

That's why I just donated to Mumia's Legal Fund, and it's why I'm asking you to stand with me.

[Will you join me by matching my donation? Just click here to match my gift!](#)

Your participation will make a huge difference for Mumia's and *all* prisoners' access to the medical care they deserve.

Thank you so much!
