Re: Inhumane Treatment in a Michigan Woman's Prison

To Whom It May Concern:

As you are already aware, African-Americans suffer greatly in this country's criminal justice system. I am one of those women and I am reaching out to you for help.

I have been imprisoned for the past 13 years in Michigan's only women's prison (Women's Huron Valley Correctional Facility). It is infested with mold and I have the lab reports to prove that the numerous health ailments I suffer from are a result of my exposure to mold.

I have been very vocal about this situation and as a result I've suffered unspeakable retaliation from the administration. The Warden and his staff have made life unbearable for me in this prison. Attached is documentation of the type of retaliation I've been subjected to. This Warden wants me to just shut up about this mold situation and just die in here from complications from mold exposure.

I am pleading for your help. Please don't let another Black woman die in prison.

Respectfully,

Krystal Clark

Krystal Clark #435064

HB 16A

Woman's Huron Valley Correctional
3201 Bemis Road
Ypsilanti, Michigan 48197

Enc.

9/29/2023

TO ALL MEDIA ORGANIZATIONS & PRISONER ADVOCACY GROUPS:

As you may be aware, in 2019 women prisoners at Women's Huron Valley Correctional Facility (WHV) in Ypsilanti, Michigan filed a two-count civil rights action against the Michigan Department of Corrections (Case No. 19-13442). This lawsuit alleged that Women's Huron Valley, Michigan's only women's prison, is riddled with dangerous conditions which include haphazard retrofitting, leaky roofs, inoperable windows, inadequate ventilation, and outdated heating/cooling and ventilation systems which have created a breeding ground for harmful fungi and spore-producing molds such as Ochroconis, Cladosporium, and Chaetomium and that exposure to these molds constitute cruel and inhumane punishment in violation of the Eighth Amendment to the U.S. Constitution.

Make no mistake, the women in Women's Huron Valley Correctional facility are suffering from mold exposure. In the lab reports of those women lucky enough to get an off-site medical diagnosis, "MOLD" is clearly defined as the cause of their ailments.

Mold related symptoms include: constant headaches, nosebleeds, constant fatigue, breathing disorders, nausea, diarrhea, vomiting, loss of appetite, weight loss, hair loss, skin rashes, open sores, short term memory loss, neurological disorders, swollen glands, chronic ear, sinus and bronchial infections, and pain in joints and muscles. Because of the substandard healthcare in this prison, women are not receiving the medical care necessary to address mold-related ailments.

On August 25th, 2023, federal Judge Victoria A. Roberts for the United States District Court for the Eastern District of Michigan dismissed the lawsuit brought by the women prisoners. What should shock the conscience of every citizen in the State of Michigan is what the attorneys representing the Michigan Department of Corrections stated when they stood before the Court. They said:

"There are no cases establishing a prisoner's right to be free from these molds (Ochroconis, Cladosporium, and Chaetomium), that it is not clearly established that any type of mold at WHV is sufficiently dangerous to incarcerated people, and EVEN IF IT WERE CLEARLY ESTABLISHED THAT CERTAIN MOLDS WERE DANGEROUS ENOUGH TO IMPLICATE THE EIGHTH AMENDMENT, IT IS NOT CLEARLY ESTABLISHED THAT PRISON OFFICIALS NEED TO TAKE ANY PARTICULAR ACTION TO REMEDIATE THE PRESENCE OF MOLD."

The women imprisoned at Women's Huron Valley are somebody's loved ones. We have families and friends that worry about our health and safety. The Michigan Department of Corrections DOES NOT share that concern. In their arguments before the Court they expressed NO responsibility or accountability for the mold-contaminated facility women are forced to live in. In other words, women prisoners should just shut up and die a slow, painful death in here from their mold-related illnesses.

By ANY standard of decency, this treatment is inhumane. If you wouldn't allow a dog to live in such deplorable conditions and suffer the health consequences, how can you in good conscience allow Michigan's imprisoned women to live this way.

Please use your influence to bring public awareness to this issue.

Date: September 9, 2023

Subject: Lack of care to address the health consequences
resulting from mold exposure in Women's Huron Valley

A management care plan was put in place for WHV Healthcare to assess by condition with regard to the ongoing well-documented "fungus mold infection" in my ear. Please see the attachment which was prepared by Dr. Ellison. It is the notes from one of these healthcare visits.

Noticeably missing is any mention of the fungus mold infection in my ear. He discussed everything but the ongoing fungus mold infection in my ear or any plans to treat it. If I make any mention in the weekly checkups about the mold diagnosis from my THREE different labs or the fact that the environment that I am forced to live in IS the source of this ongoing fungus mold infection, I am immediately asked to leave.

There has been a pattern of plausible deniability with regard to the mold problems in this facility on the part of MDOC. If they don't acknowledge the problem, they apparently don't have to treat it.

It is cruel and unusual punishment to ignore the consequences of the mold infestation in this facility which has ravaged my body. MDOC Healthcare is in possession of the lab results and other healthcare documents from off-site evaluations. They know the problem yet fail to treat it.

Please use your influence to help me obtain the healthcare treatment that I need from WHV Healthcare. Thank you for your assistance.

Respectfully,

Krystal Clark

Subject: Mold Infestation at Women's Huron Valley and the
devastating consequences it has had on my health

This is my attempt to resolve the above mentioned issue. It is well documented that mold infestation is a serious problem at WHV. MDOC policy PD 03.03.130 specifically states that prisoners are to be housed in housing areas maintained in a healthy and safe manner. That has not happened. I have been a prisoner in this facility since 2011 and the effects of mold exposure has caused debilitating medical issues that has affected my ability to function adequately in this prison environment. I am attaching a copy of a medical release form that I have submitted so that my medical records may be released to you upon request.

Since MDOC is unable to rectify the mold situation in the facility in which I am housed and my medical condition continues to worsen as a result of mold exposure, I am respectfully requesting that I be granted a medical parole.

Thank you for your thoughtful consideration of my situation. I can provide you any other documentation that you require or put you in touch with my legal advocates if necessary.

If you have any doubt as to the effect of the mold on my medical health, look at the attached picture of me when I entered this facility as compared to how I look now. The judge who sentenced me to prison did not sentence me to disfigurement and death from having to live in a prison riddled with mold.

I am writing to plead for your assistance. As you can see from the attached grievance that I have just filed, my healthcare needs are not being met. My face is seriously swollen from my ear to my throat. Staff members here have even commented on it and sent me to Healthcare, but when I get there I am not receiving the medical care necessary to address the pain and suffering I am experiencing. If WHV Healthcare cannot help me, then they should send me to the hospital.

As you can read in the grievance, Dr. Ellison is adamant that no other doctor or nurse attend to me. I am, supposedly, only his patient. He told staff this in my presence. Why? Is Dr. Ellison afraid that another doctor who assesses my condition will realize that Dr. Ellison is negligent for failing to provide the medically necessary care I need?

I am pleading for your intervention. Thank you.

Krystal Clark

Date: September 21, 2023
Subject: RETALIATION BY THE WARDEN AND STAFF

I have been subjected to unrelenting retaliation by Adm. Asst. Horton & Warden Jeremy Howard of Women's Huron Valley Correctional Facility for many months because I am the major plaintiff on the lawsuit against MDOC regarding the mold in the WHV facility that has caused detrimental health problems for me.

I will continue to send you documentation every single time this Warden retaliates against me and your failure to do anything to hold him accountable to PD 03.03.130 which expressly prohibits such retaliation can only be construed as tacit approval for him to continue and that you are deliberately indifferent to the suffering I endure because of the retaliation.

On September 21st at the Warden's Forum meeting on which I serve as committee chair for Healthcare, I discovered that I was omitted from the last healthcare committee meeting. The other prisoner representative on this committee was put on the callout to attend this meeting chaired by the Warden. It is no coincidence that I was omitted. The Warden does not want me included in any discussions at the Warden's Forum about healthcare issues involving the prisoner population because I have been vocal about the mold problem in this facility that has caused so many health problems for me and other prisoners.

According to PD 04.01.150 Section I, the Warden may remove a prisoner from the housing unit representative position if that prisoner engages in conduct that jeopardizes the custody security, or good order of the facility. I have never done any of that. What I have done is represent the wishes of the prisoners I represent and have asked the Warden at the Forum what he plans to do to address the mold problem in this facility.

I should not have to endure this retaliation for acting in my capacity as unit representative. Please address this issue. Thank you for your help.

Lock: GA 017

Subject: Retaliation

I am a severely disabled prisoner who is facing multiple acts of retaliation at Women's Huron Valley and I am respectfully asking that you open a formal investigation and send someone here to interview me.

MDOC policy PD 03.03.130 Section I #6 specifically prohibits retaliation by staff and if this policy means anything, then please address the retaliation that I am facing.

I have filed grievances against WHV Healthcare for their failures to properly diagnose and treat numerous medical conditions. In retaliation, they took my wheelchair medical detail from me in addition to other medically necessary supplies and the treatment I have received from the doctor and nursing staff has been extremely hostile.

Prisoners are not to suffer retaliation for filing a complaint against staff in an attempt to resolve issues regarding their conditions of confinement. I need that wheelchair. Without it, I am unable to function adequately within this prison environment and they know that. Please intervene on my behalf.

Respectfully,

Re: Prisoner Complaint against Women's Huron Valley Correctional
Facility Healthcare Director of Nursing Jacqueline Jones

To Whom It May Concern:

I may only be a prisoner at Women's Huron Valley Correctional Facility, but I am still entitled to be treated by medical professionals that adhere to their code of conduct for their profession. Pursuant to MDOC policy PD 03.03.130 Section G, "Prisoners are to be provided with healthcare consistent with contemporary standards of medical practice in the community." I am not receiving this care. What I am being subjected to is cruel and unusual punishment and retaliation by a medical professional which should be held accountable to your agency for this unprofessional behavior.

Director Jones' behavior includes, but is not limited to, all of the following:

- Gave medical information regarding myself to Deputy Allen and Warden Howard without my permission on more than one occasion which is a HIPPA violation. I have a right to expect that my legitimate privacy be respected. Director Jones had no right to discuss medical record information or other official information or reports with unauthorized persons.
- On September 12th, it became apparent in my discussions with Director Jones, which can be verified by audio, that Jones is the one responsible for recommending to my doctor, Dr. Ellison, that my medical detail for use of a wheelchair be cancelled. I can only conclude that this was a retaliatory action in response to grievances that I have filed against WHV Healthcare.
- Director Jones, along with Dr. Ellison, were insistent that I meet with a Mental Health therapist, claiming that my allegations about the mold being the cause of my severe infections are "all in my head". Director Jones assertion that I am "crazy" came only after I had documented lab results that my severe medical condition IS caused by "MOLD". This is a deliberate attempt to discredit me because my allegations about the mold do not fit the narrative that Healthcare and the Warden are putting forth.

- Director Jones cancelled the off-site appointment that was scheduled by Kenneth D. Rosenman as a follow up to the diagnosis that he made about the mold exposure in this prison environment as it relates to the severe medical conditions/infections I suffer from. There was no explanation for the cancellation. I can only assume that Director Jones does not want any further confirmation from Dr. Rosenman that mold is the cause for my ailments.
- Director Jones has denied my family access to my medical records both in print and verbally even though she possesses the signed consent form from me authorizing release of this information. My family is entitled to this medical information. Director Jones stated that she "wasn't going to give them anything".

There is no question that Director Jones is engaging in behavior that is unbecoming a member of the medical community. I am respectfully requesting that a formal investigation be opened. Thank you for your assistance in this matter.

Re: Health concerns

Dear Director Washington:

My name is Krystal Clark and I am incarcerated at the above facility. I am writing in the hope that you will be able to assist me. Dr. Ellison, WHV Healthcare is failing to provide me with medical care. As I have written to your office previously, I have several health concerns, the most recent is an ear infection and swelling in my face.

On July 17, 2023 my ears and throat were tested. On July 19, 2023 I was seen by Dr. Ellison and explained about the pain I was having in my ear. His reply was, "Nice try, put some of that good stuff in there." When I asked about the tests on my ears and throat, he indicated that I'm rigging the tests and I am faking everything. On July 21, 2023, I spoke with Nurse Khalif, Nurse Deu, and Dr. Johnson, pleading for medical assistance. Dr. Ellison intervened saying that I'm his patient and nobody else is to provide any medical assistance to me.

No competent healthcare professional in the community would let me suffer like this. Dr. Ellison is intentionally failing to provide me with necessary medical care to address the severe swelling in my face. I am requesting he be removed from my case and I be assigned a new doctor.

Thank you for your assistance in this matter and I look forward to hearing from you.

Sincerely,

Krystal Clark #435064

MICHIGAN DEPARTMENT OF CORRECTIONS
PRISONER/PAROLEE GRIEVANCE FORM

4835-4247 10/94
CSJ-247A

Date Received at Step I _____ Grievance Identifier: _____

Be brief and concise in describing your grievance issue. If you have any questions concerning the grievance procedure, refer to PD 03.02.130 and OP 03.02.130 available in the prison Law Library.

Name (print first, last) Krystal Clark	Number 435064	Institution WHV	Lock Number HA 16	Date of Incident 9/15/2023	Today's Date 9/18/23
-------------------------------------------	------------------	--------------------	----------------------	-------------------------------	-------------------------

What attempt did you make to resolve this issue prior to writing this grievance? On what date? 9/15/2023
If none, explain why. As soon as I received my medical records on 9/15, I immediately tried to resolve the issue with WHV Dr. Ellison, asking him why when he informed me on 9/11 and 9/13 that my recent visit to the hospital where I was given an MRI showed that the results of the MRI was "normal" that he failed to tell me the WHOLE story. The hospital actually is recommending a different kind of MRI. Dr. Ellison was dismissive of my questions, and provided no answer.

State problem clearly. Use separate grievance form for each issue. Additional pages, using plain paper, may be used. Four copies of each page and supporting documents must be submitted with this form. The grievance must be submitted to the Grievance Coordinator in accordance with the time limits of OP 03.02.130.

I am grieving WHV Healthcare Dr. Ellison for failure to provide treatment in accordance with PD 03.03.130 Section G and PD 03.04.100 (Prisoner Healthcare). When I met with Dr. Ellison on 9/13 following my recent trip to the hospital for an MRI, he told me the results of the MRI was "normal". It wasn't until 9/15 when I received a written copy of the medical record about that MRI that I discovered that the off-site medical provider (HEAH) recommended an MRI I.A.C. protocol bilateral to address the issues that I am having. Dr. Ellison did not inform me of this and has not made the necessary arrangements for me to have another off-site hospital visit for this additional MRI I.A.C. protocol bilateral testing. Failure to proceed as the hospital has recommended will negatively impact my ability to resolve this ongoing infection issue in my ears. I am respectfully requesting that the MRI I.A.C. protocol bilateral test with the off-site medical provider be scheduled as soon as possible for my fungus/nold infection.

Be brief and concise in describing your grievance issue. If you have any questions concerning the grievance procedure, refer to PD 03.02.130 and OP 03.02.130 available in the prison Law Library.

Name (print first, last)	Number	Institution	Lock Number	Date of Incident	Today's Date
Krystal Clark	435064	WHV	HA 16	9/12/23	9/18/23

What attempt did you make to resolve this issue prior to writing this grievance? On what date? 9/18/2023
If none, explain why. **I tried to resolve this issue with the PC, but the PC said that she did her part-she signed the phone disbursement that I turned in to her and forwarded it to the Business Office.**

State problem clearly. Use separate grievance form for each issue. Additional pages, using plain paper, may be used. Four copies of each page and supporting documents must be submitted with this form. The grievance must be submitted to the Grievance Coordinator in accordance with the time limits of OP 03.02.130.

I am grieving WHV staff Achour and T. Moore for failing to process my pre-paid telephone disbursement (CAR-100) that I submitted on 9/12 in a timely manner. This failure has denied me the ability to contact my attorneys and legal advocates as well as my family. It has been a week and neither the phone disbursement that I submitted on 9/10 and again on 9/12 have been processed by the business office. Other prisoners in my housing unit who submitted phone disbursements on the same day had their disbursements processed, but mine was not. I have to conclude that this is an attempt to impede my ability to contact attorneys, legal advocates, and news organizations about the mold situation in this facility and the health consequences I've had to endure as a result. Failure to process my phone disbursement in a timely manner is a violation of WHV 05.03.130 Section II. I am respectfully requesting that my 9/12/23 phone disbursement be immediately processed by WHV Business Office Tech and T. Moore, in accordance with policy.

----------------------------------	--------------------------------------------------------------------------------------	----------------------------	------------

DISTRIBUTION: White, Green, Canary, Pink — Process to Step One; Goldenrod — Grievant

- At the Warden's Forum when I stood up and asked the Warden what is being done to address the mold at WHV, he told me to "shut up" & sit down because "there is no mold in this facility".
- HUM Jones said she listens in on all my phone calls and Dr. Ellison told me that he watches me on the camera.
- Sargeant Stone ordered me to go to my room for two hours when I said I was going to contact the Governor about the mold.
- The Warden's Assistant, Mr. Horton, ordered me to stay in a room at the Control Center for 4-1/2 which resulted in me missing the opportunity to talk to my attorney David Steingold.
- Inspector Chapman took away my phone calls to my imprisoned brother which have been allowed for years. I was on restriction for 21 days.
- Sunday, September 10th at 3:50 in the morning, I was told to "pack up all your things" and report to Healthcare because they said I had "Covid symptoms" even though they know perfectly well that I DO NOT HAVE COVID SYMPTOMS. My ailments over many years are a result of mold exposure, as documented in 3 Lab reports.
- My JPay and incoming US mail takes WEEKS to reach me.
- Food Service personnel repeatedly threaten to take away the "special diet" meals that I need.
- Healthcare Dr. Ellison referred me to Mental Health, insinuating that I am crazy and that these symptoms of mold exposure which have ravished my body are "all in my head". It is funny that I wasn't "crazy" UNTIL I received the 3 lab reports documenting that I do in fact suffer health consequences from MOLD.

This ongoing retaliation is violative of MDOC policy and a deliberate attempt to silence my voice, prevent me from contacting attorneys, family, and advocates who can help address the mold and resulting health problems and that I and other prisoners are suffering from, and is unconscionable.

Internal Affairs has a responsibility to address prisoner complaints of retaliation against prisoners. I am respectfully requesting that you open a formal investigation. Failure to do so is tacit approval for the WHV Warden and his administration to continue to subject prisoners to retaliation.

Thank you for your assistance in my plea for help.

Krystal Clark
